

# Think Like Einstein: Transform Your Notes with Inspiration 12

Using Einstein's Theories to Demonstrate  
Smarter Note Capture & Understanding

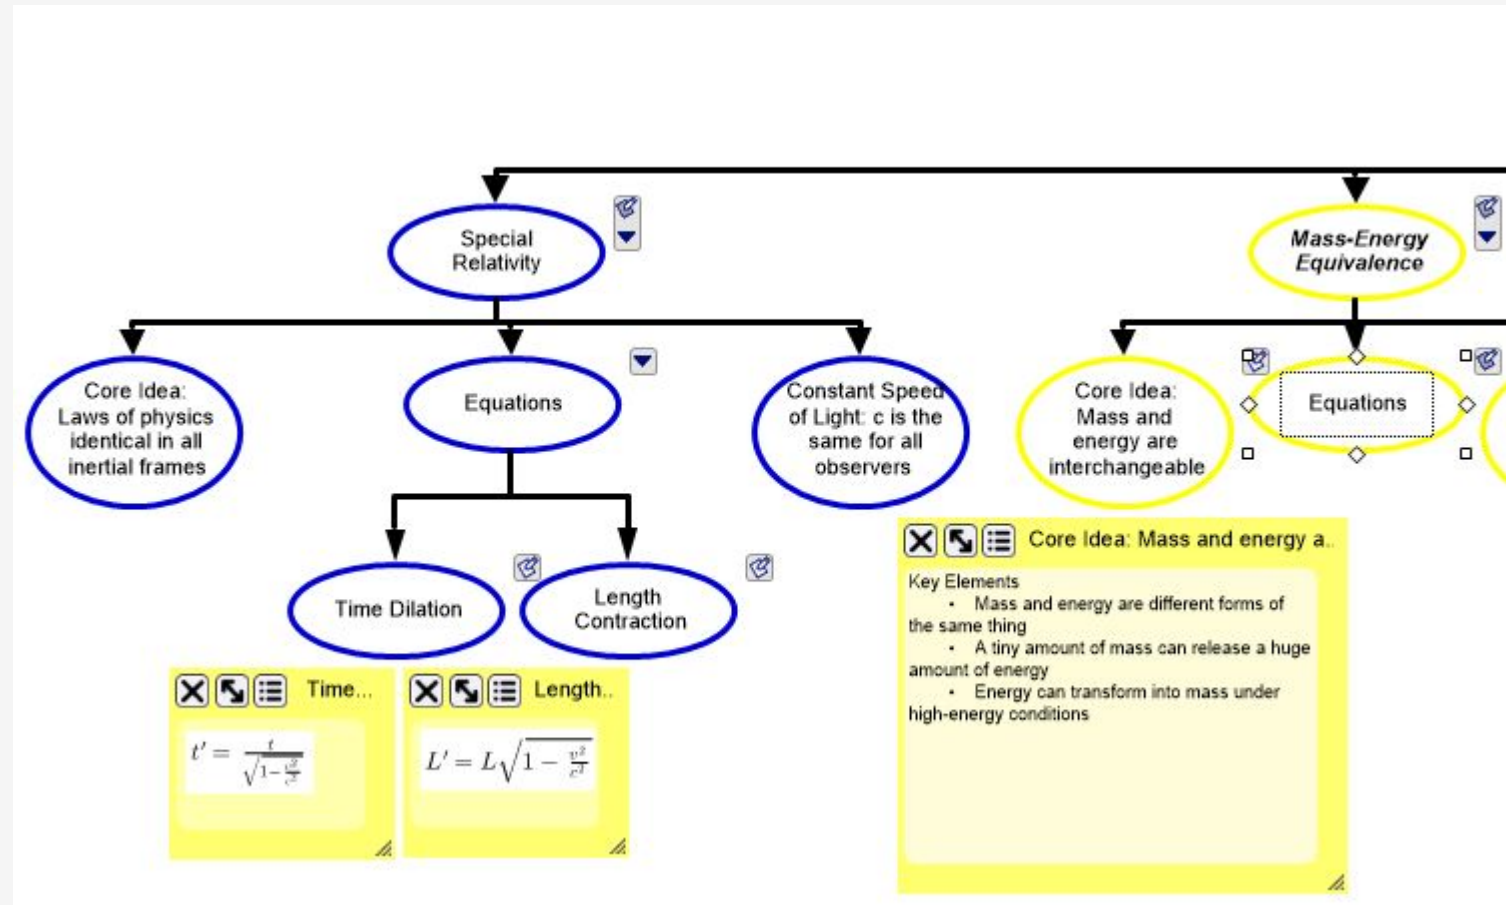

Presented by: Cheri Sorensen

Disclosure Statement: Cheri Sorensen is employed by  
TechEdology, the publisher of Inspiration.

# Meet Inspiration: A Visual Thinking Powerhouse

- A powerful visual thinking tool for all settings
- Sparks creativity and innovation
- Organizes thinking and clarifies complexity
- Built for neurodiverse and cognitively diverse learners
- Cross-device, accessible, and customizable

## Traditional Note Taking

- Linear notes struggle with complex, interconnected ideas
- Hard to see relationships, patterns, and hierarchy
- Cognitive overload leads to missed details and shallow understanding

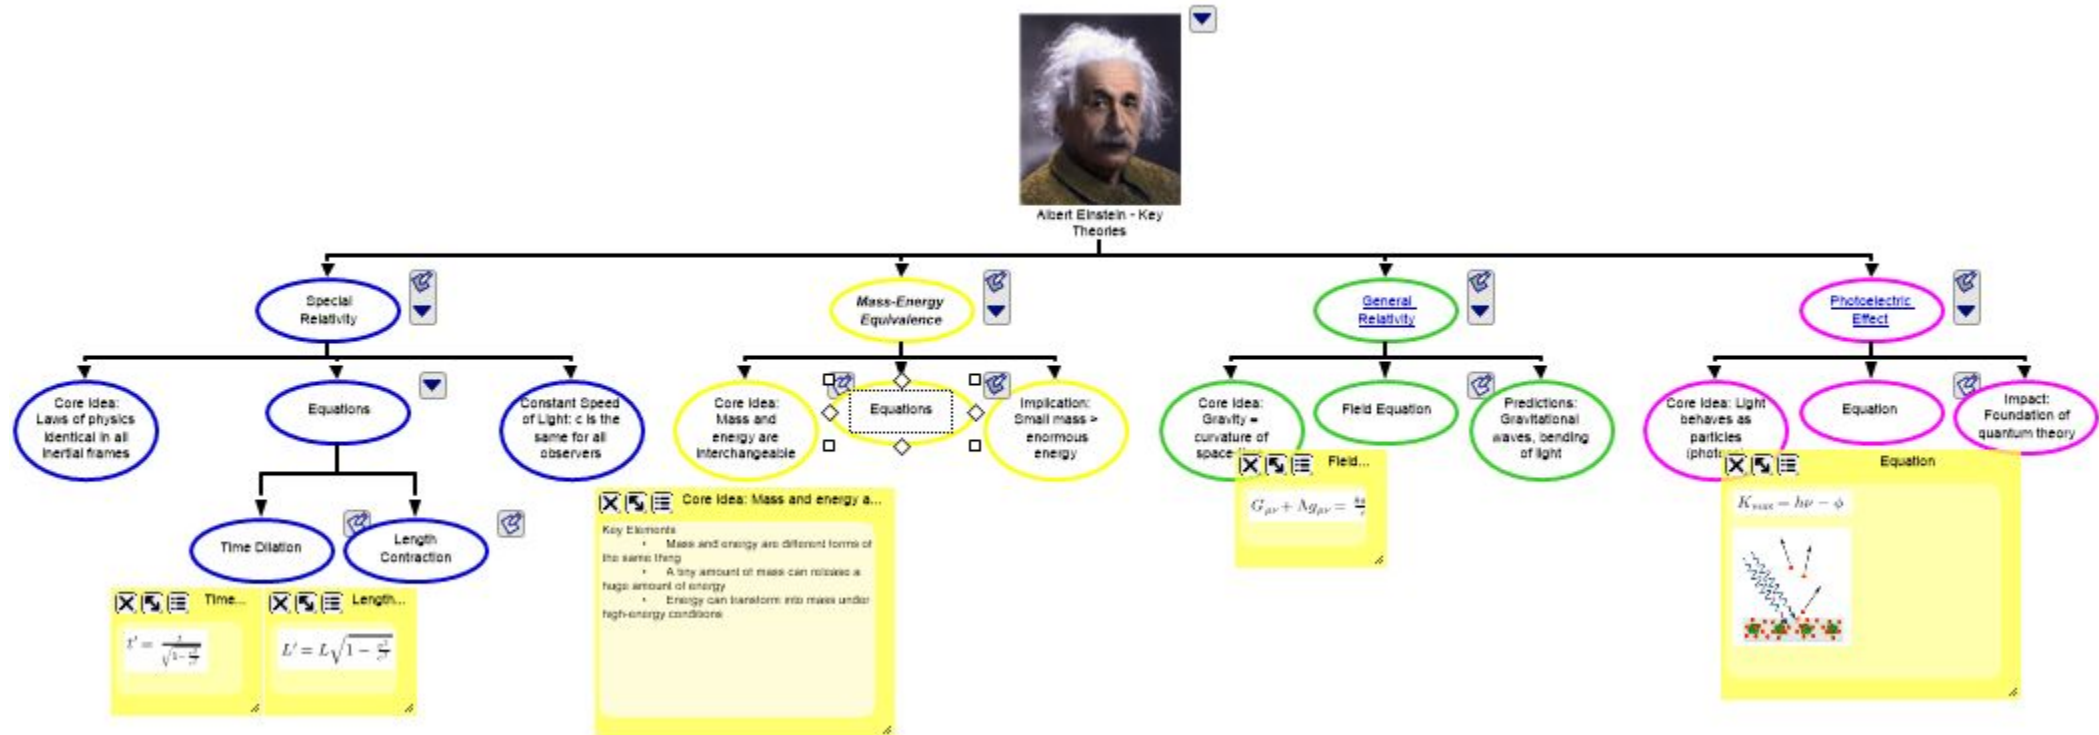

## Visual Note Taking

- Makes relationships visible
- Supports memory and comprehension
- Reduces overwhelm by chunking information

# Demonstration

# Why Inspiration 12 Belongs in Every Notetaking Toolkit

- Enhances—not replaces—traditional notes
- Supports diverse cognitive styles
- Helps learners understand, not just record

# Support & Resources

- Free onboarding support
- Wide range of training resources
  - Online
  - Virtual
- Assessor complimentary accounts for training and demo
- Assessor Toolkit
- Webinars
- Case Studies
- Software Assurance - ensures Inspiration stays up to date and easy to maintain, providing steady access to improvements and support throughout the year
