- Utilized specialized paper and notebooks
 - Looks like it is being discontinued and moved to a new product....(inq)

Other Devices, Apps and Software

- AudioNote - Windows, Mac, Android, iOS
 - Allows user to record audio and link notes to audio time stamps for easier review
 - Can attach photos and other media
- Noteability - Mac and iOS only
 - Same as AudioNote specifically for Mac (mostly)
- Otter AI – free and paid versions
 - Transcriptions with searchable notes
- Remarkable
 - Portable paper like tablet device with online tools for notes

Other Devices, Apps and Software

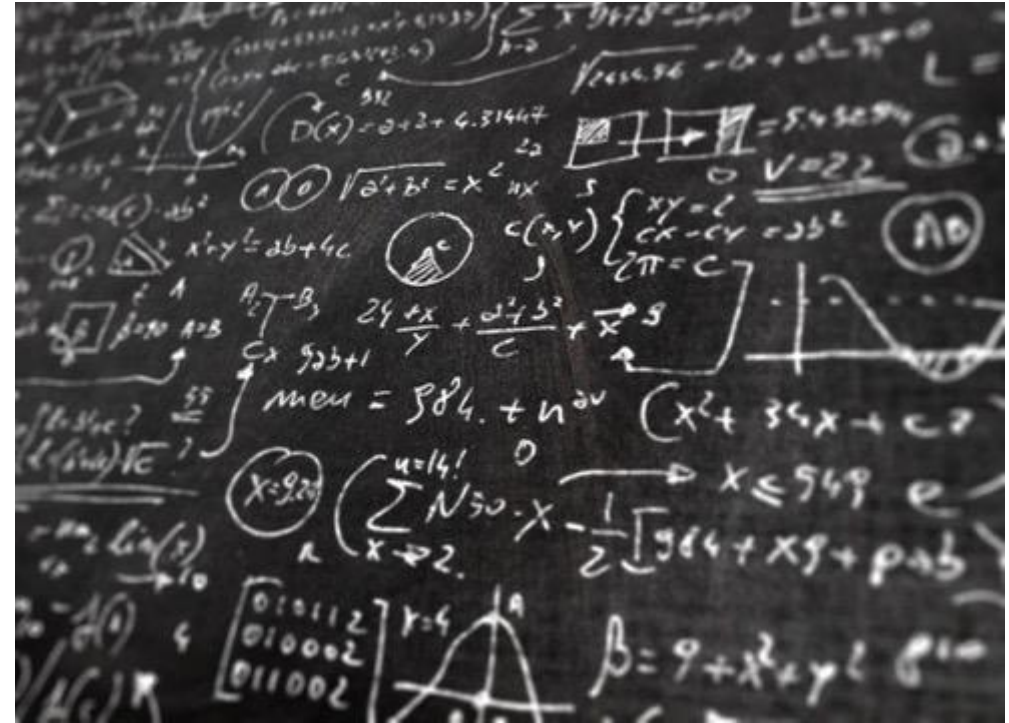

- Evernote, Google Keep, Microsoft OneNote – good for notetaking and storing other thoughts
- Built-in Notes Apps
 - iOS and Android versions
 - Can use stylus, Apple Pencil and others to take notes
- Digital Recorders
 - Different models with different features
- Systems?
- Others?

Wrapping It All Up

Many Solutions Out There

- There are many tools out there to assist with notetaking.
 - Some are free, some are very expensive
 - If it is the one that works, it is invaluable!
- It is important to find the one (or many) that work for you.
- Work with disability services and others to find the right solution.
 - Borrow or try out solutions – AT Act, school, work
 - See what accommodations are available through the school/employer
 - Speak up and advocate
- Keep trying!!
